

Marine VHF radio is the best way of summoning help. You can contact the coastguard up to 50 miles offshore and talk to other yachts up to 15 to 20 miles on the open sea. If you use a marine VHF radio onboard your yacht you require by law a radio operator's licence. This course is taught using radio simulators and will be examined by a short written test.

Course Based at:	Marina Ibiza
Course price	€215 + 21% IVA
